RE:

To Whom It May Concern:

As the legal parents of \_\_\_\_\_ (DOB \_\_\_\_\_), we object to all immunizations, including but not limited to Dta/DTP, HepB, Hib, MMR, Polio, Varicella, tetanus, based on religious grounds. The law as stated by the Illinois School Code is as follows:

(8) Parents or legal guardians who object to health examinations or any part thereof, or to immunizations, on religious grounds shall not be required to submit their children or wards to the examinations or immunizations to which they so object if such parents or legal guardians present to the appropriate local school authority a signed statement of objection, detailing the grounds for the objection. If the physical condition of the child is such that any one or more of the immunizing agents should not be administered, the examining physician, advanced practice nurse, or physician assistant responsible for the performance of the health examination shall endorse that fact upon the health examination form. Exempting a child from the health examination does not exempt the child from participation in the program of physical education training provided in Sections 27-5 through 27-7 of this Code [105 ILCS 5/27-5 through 105 ILCS 5/27-7].

Immunizations are in conflict with our bona fide sincerely held beliefs and practices which violate the natural laws of health by introducing unnecessary toxins which destroy the natural built in immunity that is already present in a healthy body. We as parents assume FULL RESONSIBILITY for our child's health, thus removing same from school as it pertains to immunizations.

Sincerely,
